Exploring future career pathways

Tuesday 14th May 2024

*Exploring the possibilities of a future in the world of
SME, Construction and Small Business Start-Up*

This event was engineered to provide career guidance and information on what it takes to be amongst other things be an entrepreneur or alternatively dive straight into post-16 pathway which offers on-the-job skills, training and knowledge with the possibility of working within the construction industry.

Becoming an Entrepreneur

Attendees discovered that entrepreneurs are individuals who sets up a business or businesses, taking on financial risks in the hopes of making profit. These are normally new ideas or bring a fresh, new or technological approach to an older business ideals. Opportunities and support for entrepreneurs and Start-Ups are abundant.

Engineer: "I have decided!"
