

## New Woodlands Cultural Diversity: Summer 2024

In July Pupils across both Primary and Secondary participated in the annual cultural diversity day. The focus for this year was celebrating foods from all around the world.

For those that don't know, Cultural Diversity Food Day is a celebration that highlights the rich variety of culinary traditions from different cultures around the world.

The purpose of the day was to recognize the diversity of global cuisines and the cultural traditions that come with them.

During the day, Pupils learned about,

- **Food Sharing**
- **Storytelling**
- **Methods of eating and its significance**

Alongside Mr Fernandes who led the day was Eimma Miah. Eimma helped in the preparation and delivery of a Bangladeshi signature dish called Dahl. Eimma spoke about the correct way of eating Dahl with Rice with your hand and the customs/traditions that came with it.
