Drug Awareness Workshop – September 2026

Tuesday 22nd September 26 Year 6 students took part in a Drug Awareness Workshop led by Robert, a regular visitor to our school. This is the third year that I have had the pleasure of supporting students during his workshops. Robert shared his personal experience of addiction, explaining how he began using drugs to feel more confident, but how this developed into years of dependency that had a devastating impact on his health, marriage, and career.

Now drug-free, Robert is committed to educating young people about the risks of drug use. His honest and inspiring story helped students understand the impact of addiction and the importance of making safe, positive choices for their future.

- The workshop was interactive with real-life experience to support our young people developing awareness of drugs and the dangers they pose.
- The sessions were informative and helpful. There were meaningful discussions student asked questions which were important to develop student knowledge and awareness.
