A Musical Success Reaching Switzerland!

The Art Department is incredibly proud to celebrate a fantastic achievement. One of our standout highlights 2026 was the creation of a poster design for a music festival in Neuchâtel, Switzerland and we are delighted to share that our design was selected for use by the festival organisers!

The vibrant and colourful artwork features a range of musical instruments brought to life by musicians, capturing the energy, creativity and excitement of live music. The design beautifully reflects the spirit of the festival and showcases the artistic talent and imagination of our students.

What makes this achievement even more special is that the poster was displayed throughout Neuchâtel and featured on promotional flyers across the city, giving our students' work an international audience.

I am immensely proud of everyone involved in this project and excited to see our artwork making such a positive impact beyond the classroom and across Europe. This accomplishment is a wonderful example of how creativity can connect communities and cultures around the world. 🎨🎵
